

# DUROPAL RAPID 2011-2012

STOCK PROGRAMME DUROPAL

Your advantage: the colour match with

**DUROPAL**  
HPL IS OUR WORLD

# DUROPAL-HPL IS FASTER NOW

Do you value Duropal-HPL most for its quality and variety of decors? Now you can save valuable time on jobs, too. Thanks to optimised merchandise and warehouse logistics, the availability of Duropal Rapid, Duropal's extended warehouse collection, is much improved. This means that material is available in larger quantities and can now be delivered faster than was customary in the past.

Average delivery periods of one week apply to all Duropal-HPL, Duropal-Look!, Duropal-HPL-SolidColor and Duropal-HPL-Doors decors in this brochure. In the case of Duropal flat bonded elements, two weeks should be allowed for delivery (actual delivery periods depend on order quantities and stocks, longer delivery periods may occur in individual cases).
